**Y6 EVOLUTION AND INHERITANCE LESSON 5 animal adaptation pack**

Sharp claws for tearing meat	Two rows of razor sharp teeth for biting prey
orange, black and white stripes for camouflage	Large ears to hear prey
A strong tail to move fast through water	A pointed shape to cut through water
Lots of legs for balance	A light body to balance on light things
Strong paws to hold prey	A horn to use as a weapon

Thick skin to protect the body	Poor eyesight but a good sense of smell to find underground food
Sharp talons to catch and tear prey	Slippery skin to cut through water
Gills to breathe in water	White fur to hide in snow
Black and white stripes for camouflage	A sharp beak to tear prey
Small sharp teeth to catch small woodland prey	Wide claws for digging

(Harder version)
